Repertoire Guides – Flute
This guide was created to aid you in finding information about and, music for, the flute. Use this repertoire guide as a browsing tool or as a beginning to your search. As always, consult the University of Alberta Library website (library.ualberta.ca) and the catalogues for complete holdings information and, when uncertain, ask at the Reference/Service Desk!

Suggested Call numbers for shelf browsing
The classes below are general call number ranges, and contain scores for many ensembles which may not include the flute. For specific call numbers of works, consult the Library Catalogue. Do not forget to look in collections of music by composer.

Special Locations for Printed Music
In addition to the main collection of printed music, there are two other locations, all at the east end of the Library near the listening area, where special materials are shelved. A particular call number may occur in all three locations. The two special locations are the following:

• Miniature scores (less than 21 cm tall): On the east side of the last range of shelving. In the online catalogue, this location, within the Rutherford Library, is given as “Music Miniature Scores.”
• Oversize scores (too large for the regular shelves): On the west side of the last range of shelving. In the online catalogue, this location, within the Rutherford Library, is given as “Music Oversize.”

Flute Studies, Methods, and Literature
In addition to printed music, the University of Alberta Rutherford Library houses study materials, including orchestral excerpts, as well as literature concerning the flute.

**Searching for Flute Recordings or Scores using Keyword in the Online Catalogue**

- Use quotation marks around phrases. "French Horn"
- Truncate using "?" This is an excellent way to improve your search results. For example, Sona? will find Sonata, Sonatas, Sonatina, Sonatinas etc.. Truncating means you don't have to search for these words separately by typing each one individually.
- Use "AND" and "OR" to combine words or phrases. These are known as Boolean operators.
- Use parentheses: ( ), called "nesting", to groups terms together so you can combine even more concepts or Synonyms. For example: (cello OR violoncello) or (beliefs OR attitudes). Using both terms ensures you will get relevant results.
- Use the limits within “Advanced Search” to limit by type to recordings, scores or videos.
